

Military Resistance 12G7

Military Resistance Newsletter Still Blocked By Computer Failure

Publication of the Military Resistance Newsletter has been interrupted for several weeks by computer failure damaging both computer functions and highly specialized Word program functions necessary to continue publication.

The problem not yet fixed is failure of the office clipboard application that cripples ability to copy and post news reports and other text material from the Internet for publication, including text content sent in by email from Newsletter contributors.

This means a new Word application must be bought and installed now, requiring both funds for purchase and installation.

That should end this ongoing shitstorm.

Special regrets for the delay to civilians, veterans, and active duty who have sent in material for publication.

Your Assistance Urgently Necessary Now

There is still nowhere near enough cash on hand yet to pay for the expenses necessary to get the repairs finished.

No funding support has been requested or received by Military Resistance Newsletter since 2013.

There is no source of funds other than support from readers.

The need is urgent and immediate if we are to continue the work.

If you have found the Newsletter useful, please help now.

Thanks to you who have already responded with assistance!
